

3.4 Assignment

Part A

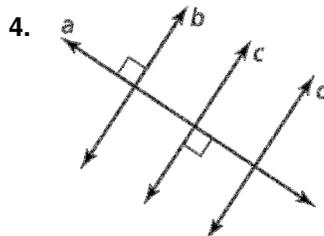

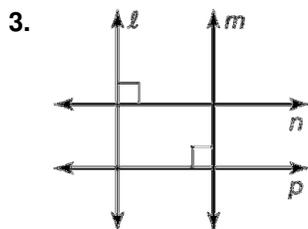

1a. Find the distance from point P to \overline{AB} .

1b. Find the distance from point P to \overline{QS} .

In Exercises 3 and 4, determine which lines, if any, must be parallel. Explain your reasoning.

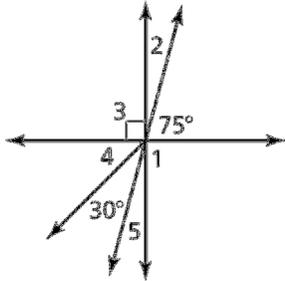

6. Your friend claims that there is only one line that can be drawn perpendicular to \overline{PQ} . Is your friend correct? Explain your reasoning.

7. Draw and label line n that is the perpendicular bisector of \overline{AB}

Part B

6. Find all the unknown angle measures in the diagram.
Justify your answer for each angle measure.

7. Draw the perpendicular bisector of each segment.
